Contents Volume 100, 2001

Research Papers

Composition of plant tissues and soil organic matter in the first stages of a vegetation succession
K.G.J. Nierop, B. van Lagen and P. Buurman 1

Development of pedotransfer functions for a profile cone penetrometer
S. Grunwald, D.J. Rooney, K. McSweeney and B. Lowery 25

Characterizing preferential transport during flood irrigation of a heavy clay soil using the dye Vitasyn Blau
H. Yasuda, R. Berndtsson, H. Persson, A. Bahri and K. Takuma 49

Digital elevation model resolution: effects on terrain attribute calculation and quantitative soil-landscape modeling
J.A. Thompson, J.C. Bell and C.A. Butler 67

Microbial communities in boreal coniferous forest humus exposed to heavy metals and changes in soil pH—a summary of the use of phospholipid fatty acids, Biolog® and ^{3}H-thymidine incorporation methods in field studies
T. Pennanen 91

Physical speciation of trace metals in Fe–Mn concretions from a rendzic lithosol developed on Sinemurian limestones (France)
C. Latrille, F. Elsass, F. van Oort and L. Denaix 127

Mineralogical and (sub)microscopic aspects of iron oxides in polygenetic Oxisols from Minas Gerais, Brazil
C.C. Muggler, J.J. Van Loef, P. Buurman and J.D.J. van Doesburg 147

Contrasting dynamics of dissolved inorganic and organic nitrogen in soil and surface waters of forested catchments with Gleysols
F. Hagedorn, J.B. Bucher and P. Schleppi 173

The role of macrofauna in the transformation and reversibility of soil structure of an oxisol in the process of forest to pasture conversion
E. Barros, P. Curmi, V. Hallaire, A. Chauvel and P. Lavelle 193

Preface 215

Research Papers

Developments and trends in soil science: 100 volumes of Geoderma (1967–2001)
A.E. Hartemink, A.B. McBratney and J.A. Cattle 217

Modelling soil variation: past, present, and future
G.B.M. Heuvelink and R. Webster 269

Elucidating the fundamental chemistry of soils: past and recent achievements and future frontiers
D.L. Sparks 303

The chemistry of pedogenic thresholds
O.A. Chadwick and J. Chorover 321

Developments in soil–water physics since the mid 1960s
P.A.C. Raats 355

Developments in soil microbiology since the mid 1960s
H. Insam 389
Some major developments in soil science since the mid-1960s
A.R. Mermut and H. Eswaran 403

Contents Volume 100, 2001 427
